

Extend Service Dollars for **AC** via **UV**

A/C coil mold growth before the UV360

Guaranteed Performance with the ComfortBreeze™ UV360-1

A/C coil mold growth after the UV360

ASHRAE Validated UV Effectiveness

- A January 2016 ASHRAE¹ study reports UV eliminates $\geq 90\%$ of microorganisms, such as fungus and mold, growing in HVAC systems, removing their bad smell
- UV reduces incidence or occurrence of hypersensitivity pneumonitis, allergic rhinitis, and asthma

¹ ASHRAE. 2015. *ASHRAE Position Document on Filtration and Air Cleaning*.

Most Cost-Effective UV Defense System

- Same product and price range as Amazon
- Connects to 24V or 120VAC for lowest cost installation
- Packaged with complete install kit
- Improves AC cooling capacity by eliminating AC coil build-up
- Uses less electricity by keeping AC coils clean
- Completely automatic - replace one standard, low-cost UV bulb annually
